

Ali Altuncevahir

Sound and Piano Technician

Resume

He started music studies when he was in High School. During these years he interested with Opera art. He took singing lesson from Kevork Tavityan and sang in amateur choirs for a long time. His skills on technical subjects led him to concentrate on audio technologies. He became as an assistant technician at Taşoda Music Studios in 2006 and had the opportunity of self-development on the studio recording techniques. Then decided to specialize in the field of live recording techniques. He did frst concert recordings with Cem Köksal then continued with Can Aykal. Also he took two years course on piano maintenance, rebuilding and tuning at Istanbul Technical University Turkish Music Conservatory Instrument Making Department with instructor Tunç Buyruklar. He studied 'Bach Style unequal- Temperament and Application to Modern Concert Piano' with Mark Lindley. He had opportunity for advance studies in piano mechanics and voicing with Anton Daum. Currently, he continues to study recording techniques of chamber music, orchestral music and opera and servicing under private company.
